Instructions to Revise a Notice of Intention to Commence Small Mining Operations or Exploration

When a Notice of Intention to Commence Small Mining Operations or Exploration (Notice) requires change an Application to Revise a Notice of Intention to Commence Small Mining Operations or Exploration must be submitted. Changes may include Operator address or operational changes. When operational changes are proposed the change may not be implemented until the Division determines that the revised Notice is complete and if necessary a revised reclamation surety approved. The Notice must include all information, concerning the revision, that would have been required if it had been included in the original Notice.

Instructions:

- Changes to the Notice are made by providing a completely new Notice or by adding, replacing, or removing pages to the current Notice. Detailed instructions for adding or replacing pages and maps must be included (please identify on the attached form MR-REV-SMO).
- The revised Notice should be accompanied by a cover letter: referring to the permit number, operator name and mine; content description; and referencing any Division action that initiated the change (i.e. Notice of Violation, previous review, inspection).
- The submitted revision must be complete and should not rely on additional materials that will be submitted at a later date.
- Form MR-REV-SMO, or equivalent, must be submitted with the application for change. After the Division approves the change, a copy will be stamped "approved" and returned to you.

RE: **WELLMAN MINERALS CORPORATION – File No. SO 45/0055**
Revise NOI (Change of Address) – Form(s) MR-REV-SMO & MR-AR (attached)

Dear Leslie,

As instructed by Form(s) MR-REV-SMO & MR-AR, this submittal includes the referenced cover letter for the appropriate forms attached.

Referenced Form MR-REV-SMO includes the appropriate "Remove" and "Replace" lines addition in order to remove and replace the **address on file**. The previous address was: 10688 S. Indigo Sky Way, South Jordan, Utah 84095. The **new address** is: **5159 W. Burntside Avenue, South Jordan, Utah 84095.**

A copy of the Form MR-AR (Annual Report) is attached because this form is submitted on the same date as the requested "Change of Address."

Thank you for your support and consideration in these matters. We appreciate your help.

Sincerely,

Gregory R. Bennett, Managing Director

MINE NAME: Rocking Chair/Brown Rock #7

Amendment/Revision to Notice of Intention

(Small Mining Operation/Explorations)

Dear Leslie Hepler,

Please accept this cover letter (and enclosures) as our formal request to amend/revise the existing approved **NOI** on file.

*This request includes **an amendment/revision** to the existing approved **Reclamation (disturbance) Area** within the Rocking Chair/Brown Rock #7 Mining Claim. The reclamation surety bond presently in place covers a One (1) Acre disturbance area. The proposed (and requested) revision shall also be confined within a One (1) Acre disturbance area. (Please refer to the enclosed area maps.)*

Amended/Revised Area of Disturbance (detail):

The present **NOI** on file claims an (rectangular) area 150 ft. Wide X 290 ft. Long – **One Acre**.

This request proposes to trade the (northern portion of the approved on-file area ; or area directly “above” the wash area) of the existing approved area for the two sections (as shown on the map(s) immediately to the west and east of the southern portion of the approved area – totaling **One Acre**.

The amended/revised area will then include:

- a) "Southern Portion (including the wash) of the existing approved area – 25,875 square feet.
- b) Western attached area (as shown – which includes the existing well and fenced area with additional 10 ft. borders on all sides – 3,500 square feet.
- c) Eastern attached area (as shown – which includes additional overburden area(s) – 14,000 square feet.

The approximate total square footage of the three area indicated above are: 43,375 (with allowances to extend to the entire one-acre footage area.

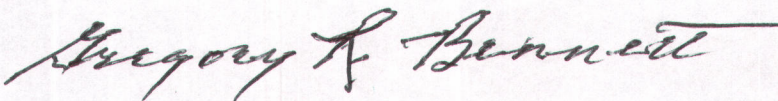

Additional Reclamation Bond increase: (As previously agreed)

The increase of Reclamation Bond (to the present Bond on file), as previously agreed, is in our understanding a total of \$1,500 for the amended/revised area. This increase is to cover the extended responsibility of reclamation to the existing (shallow depth) well located within the proposed 3,500 square foot area. Please provide details for our posting of this increased amount.

We appreciate your help and consideration in approved this proposed/requested amendment/revision to our **NOI**. Thank you for your support in this matter.

If there are any further questions, please contact me at your earliest convenience.

Sincerely,

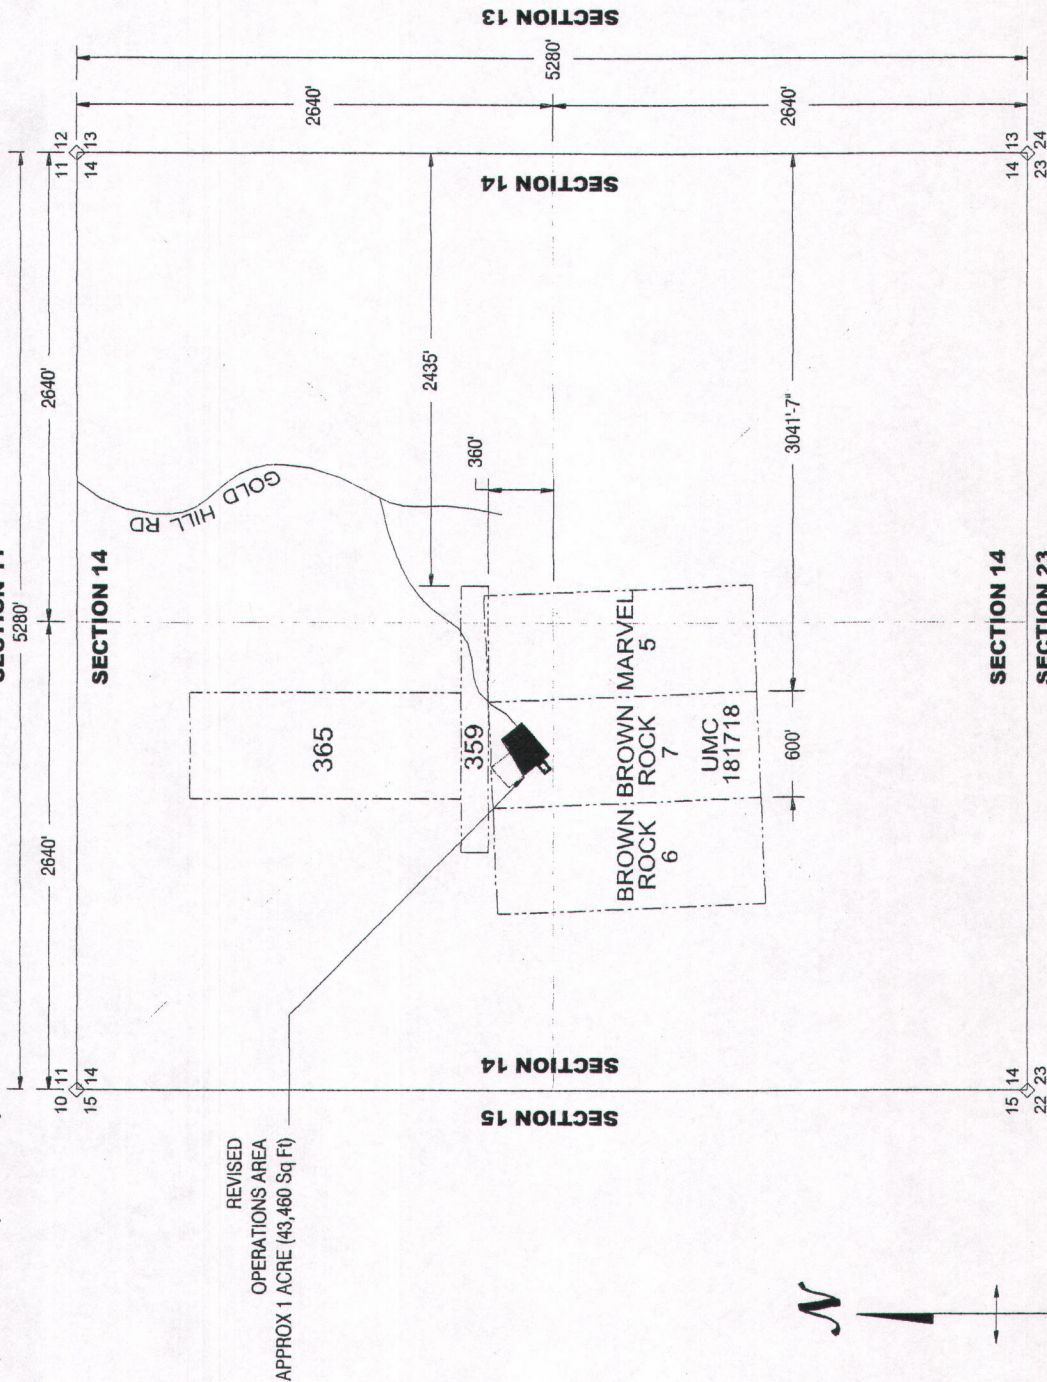

Gregory R. Bennett, Managing Director
